

Intelogy Managed Microsoft Cloud

Our Managed Microsoft Cloud service is designed to take you, your users and your data into a new era of IT. Your journey to the Cloud starts now.

Driven by cloud technology, these enterprise-grade services can be available to everyone, boosting productivity, reducing risk and on-going cost.

Our vision is a world where...

You don't have to worry about server uptime and availability

01

Emails, files, phones and business applications are hosted in the Cloud.

03

Backups and continuity are built into the service.

04

Modern, intelligent security is built into the service and driven by reliable, industry-leading technology.

05

Expensive hardware purchases are a thing of the past.

The latest operating systems and business productivity tools are available to everyone across the organisation, on any device.

06

07

The investment you make is for the service you use now, not in 5 years' time.

The time spent patching, securing and upgrading servers and desktops can be reclaimed for improving your business

08

09

Your company data is available securely from anywhere

10

Solutions are delivered with change management to improve adoption and return on investments

Designed for small and medium sized organisations, our Managed Cloud service is perfect for providing a fully managed, outsourced solution for email, files and phone, device management and security or help moving away from out of date on-premises infrastructure and VPNs.

small business

10-100 members

medium business

> 100 members

We offer a range of packaged services for any type of organisation to help you transition to Microsoft Cloud with protection and simplification of management. If you have complex requirements our engagements can be tailored to your needs.
