

# Microsoft Teams FastTrack Package

Do you want to use Teams but are not sure where to start?

For this package we are assuming you already have Microsoft 365, are using it to some extent and are wondering how best to deploy Teams across the organisation in a rapid but controlled and properly implemented manner, taking into consideration the change management and adoption aspects for end users.

We get organisations up and running with Teams within days, not weeks!

## THE PHASES

### GETTING STARTED

1

- Provide awareness of features, benefits and potential risks of Teams
- Understanding your requirements, constraints and the way you wish to use Teams
- Devising a Teams roadmap and a governance plan for long term maintenance
- Change management strategy

### IMPLEMENTATION

2

- Configuration of your tenancy according to rollout and governance requirements

### ADOPTION SUPPORT

3

- Teams etiquette guide
- Site Owners Teams guidance document
- Governance workshop
- Data storage guide

**Intology Microsoft Teams FastTrack Package**

For only

**£ 9,950**

If you've heard about Teams and know that it could help you be more effective then we're here to help you understand all the possibilities, deal with your governance requirements and help your people successfully adopt a Teams solution that you can easily self-manage.
